EDITORIAL.

The transition from war to peace is complete and the School is now prospering under comparatively normal conditions although we still lack the stately iron railings which were wont to grace the front of the School in the "piping days of peace." The result is that the younger generation of the neighbourhood try to augment their rations with the produce of the few fruit trees at the side of the drive. The members of the School being thus deprived have organised a fruit picking camp at Evesham for the summer holidays.

Internally many changes have taken place from the return of all the Masters to the return of the window-boxes in the quad. This term too, we shall unfortunately be losing the sole survivor of the staff of mistresses. Miss Bates is leaving and preparations are being made against the expected invasion of the empty mistresses' common-room by the Prefects who have been casting longing glances at it ever since they outgrew their own.

Under the guidance of the new cook, the kitchen—now functioning under the more modern and dignified name of canteen—has been nobly serving the appetites both of those staying at school for dinner and of the continually numerous cricket teams. Nevertheless it is severely handicapped by the ever-present lack of the delicacies of life and it is hoped that things will improve after the aforementioned agricultural camp has finished its work.

SCHOOL NOTES.

Prefects:

We regret to have to amend the Roll of Honour. H. A. Cheeseman, Sgt., R.A.F., posted as missing is now known to have given his life.

We welcome back Mr. J. G. Dunning, Mr. J. H. Butler and Mr. H. C. Phillips from service with the Armed Forces.
Mr. H. A. Wrenn, M.A., of Christ Church, Oxford, took up his position of Headmaster here in January. He comes to us after serving as Senior Modern Language Master at Birkenhead School; St. Peter's School, York; and recently at Bradford Grammar School.
Mrs. Allan left us early in the Summer Term and we lose Miss Bates at the end of term. We are very grateful for all these and other ladies have done whilst on the staff during the war.

We congratulate J. T. Hardwick on his cricket, which gained a Northamptonshire County trial on the 6th June. Subsequently he played for the County 2nd XI against Warwickshire.

We are proud of D. F. White, who has played for the Army Rugger XV. several times.

We have been glad to see Mr. F. C. Lay, M.A. (Headmaster 1930—1937), Mr. A. R. Woolley, M.A. (Headmaster 1937—1945) and Mr. B. W. Appleby, M.A. (Music Master 1932—1939) during this term.

If the following list of excursions and visiting lecturers seems to show that there has been no time for school work this last two terms, we shall have to refer you to the Examination results to prove these were all extra!

Jan. 16 U.N.O. Meeting addressed by Mr. Caterall.
Jan. 23 Visit to Praed’s Brewery.
Feb. 6 Road Safety Campaign—lesson by Sgt. Knight followed by bicycle inspection.
Mar. 6 Visit by few boys to London to see “Hamlet.”
Mar. 7 Lecture by H. W. Barritt, Esq., M.A. of the Wool Control, on Scientific Story of Wool.
Mar. 29 Lecture by Brig.-Gen. Frost, C.B.E., M.C.
April 2 Visit to Wellingborough Co-operative Dairy.
April 2 Visit to Wellingborough Iron Works.
May 17 Road Safety Campaign, M.O.I. Film.
May 21 M.O.I. Film of P.L.U.T.O. with 105 visitors from the Technical College to see the film.
May 22 Quaker Film “The Hard Road Back,” at the Girls’ High School.
May 29 Visit to Whitworth’s Flour Mills.
June 5 Visit to the International Ballet at the New Theatre.
June 21 Visit to Stratford to see “Macbeth,” at the Shakespeare Memorial Theatre.
July 9 Visit to Kettering Evening Telegraph Works.

For the work of Mr. Holmes in particular in connection with many of the above visits, we are very grateful.

The School National Savings total now stands at £1,449.

Collections in Hall during the year:—Cottage Hospital £14/0/6; County Cricket Appeal Fund £4/1/6; Poppy Day £6/17/6.

We acknowledge with thanks the receipt of the following contemporaries and apologise for any omissions. The Wellingburian, Ousel, The Northamptonian, The Cytringian.

If any Old Boy flying over the school field thinks we have taken to hop-scotch, we can assure him that the weird markings are not ours, but the work of the Local Youth Organisations which use our field.
We have been glad to see an increasing number of Old Boys visiting us and wearing civilised clothing again (if demob. suits warrant the expression). Come often—we are always glad to see you.

A large party of boys who will have just finished School Certificate and Higher School Examinations, accompanied by several masters are going to a Harvest Camp at Evesham on July 18th for three weeks.

Mr. R. A. Colsell assisted on the staff for a few weeks and we are glad to welcome on the staff, Mr. E. Essex and Mr. H. N. Atherton.

HOWARD’S REVIS STUDENTSHIP.

G. J. Howard has been informed by the Registrar of Nottingham University College that he would have been awarded a Revis Studentship had he been old enough, but the number of ex-servicemen going into residence has made it necessary to fix the age of entry for undergraduates at such a level as to exclude him.

R. H. Tyers, 1941 (3) School Cert., 1945. L.M.S.

This year the fixture list was strengthened by the inclusion of a game with Northampton G.S. 1st XI., and a beginning was made with a 2nd XI. programme which should be extended in future years.

Throughout the season the 1st XI. went on to the field with the comforting assurance that the bowling of Hardwick and Minney would dismiss the opposition fairly cheaply, but in the earlier matches they lacked confidence in their own ability to score runs.

However, a combination of aggressive bowling and sound fielding led to a very successful season. Only two matches have been lost to date and those by a narrow margin; an unexpected defeat at the hands of Wilby C.C. and a reverse at Kettering G.S. which was amply repaid by a seven wickets victory in the return match. Further wins were scored against Wellingborough Thursday, the Parents, and the second teams of Bedford School, Bedford Modern and Wellingborough School respectively.

Hardwick always bowled well, and when the wicket showed any life his attack was decisive. His handling of the team indicated unusual experience and knowledge of the game, and he was the only batsman capable of a big score. It is pleasant to record that his ability and enthusiasm were rewarded by a County Trial and a game with the County 2nd XI.—rare distinction for a school boy.

Minney bowled extremely well at times, but was occasionally short of a length. As a batsman he took a long time to settle down and received very harsh treatment from the umpires.
Of the change bowlers Chapman was by far the most accurate, and he also improved steadily with the bat.

The most promising of the younger batsmen, if not of the entire team, was Law, who has a sound defence and is developing an attractive off-drive. As wicket-keeper he kept the byes down but lacked enterprise.

Hyde occasionally scored runs, but was unreliable owing to his impatience and a partiality for the crossed bat. His failures were redeemed by his excellent fielding, which gave a lesson in mobility to a safe but rather stolid team of fielders.

The batting of Hodgkins also improved steadily, and, although he was not needed to keep wicket, he let very little pass him at point.

The remaining batsmen, Timpson, Wallis, Coles and Hill sometimes produced runs, and Surridge showed good scoring shots on the leg side. Smith, D. R., Jones, J. and Lawrence, K. also played, the last named possessing a sound defence which should lead eventually to better things.

CRICKET RESULTS.

School 68 (Fair 19, Timpson 14).
Bedford 31 (Hardwick 8 for 9).
Won by 37 runs.

May 18th. 1st XI. v. Peterborough King’s School. Home.
School 43 for 1.
Rain stopped play.

School 26.
Kettering 27 for 7.
Lost by 3 wickets.

June 1st. 1st XI. v. Wellingborough School 2nd XI. Away.
School 124 (Hardwick 80, Coles 14).
Wellingborough 52 (Hardwick 6 for 15, Chapman 3 for 13).
Won by 72 runs.

June 19th. 1st XI. v. Wellingborough School 2nd XI. Away.
School 91 (Hardwick 18, Hyde 14, Wallis 14).
Wellingborough 74 for 8 (Hardwick 5 for 26).
Drawn.

June 20th. 1st XI. v. Parents XI. Home.
School 115 for 6 declared (Hardwick 63 not out, Law 19).
Parents 74 (Timpson 3 for 8).
Won by 41 runs.

June 22nd. 1st XI. v. Wilby C.C. Away.
Wilby 40 (Minney 5 for 20, Hardwick 5 for 12).
School 26 (Hardwick 16).
Lost by 14 runs.

June 27th. 1st XI. v. Wellingborough Thursday C.C. Home.
Wellingborough 39 (Minney 6 for 25, Hardwick 3 for 9).
School 41 for 6 (Hyde 19).
Won by 4 wickets.

Kettering 30 (Minney 5 for 10).
School 31 for 3 (74 for 8) (Minney 20, Surridge 19 not out).
Won by 7 wickets.

Bedford 51 (Hardwick 4 for 15, Chapman 3 for 10).
School 52 for 4 (Hardwick 32, Hodgkins 12).
Won by 6 wickets.
UNDER 15 XI.

The Colts have not had a successful season in respect of winning their matches; but in many ways the games have been not unsatisfactory. The success of our opponents has often depended on the prowess of one boy, or one or two boys; our Colts are a team with a fairly good standard of performance throughout, and can generally be expected to play a good game. The fielding was ragged at first, but has improved during the season.

Surridge has made a good Captain and has done well both in batting and bowling. Roberts also has done well at both. Skerritt, Leslie and Wills are developing a very nice style in batting, and Levy, Houghton, Wilson and Ellingham show promise. Hunt and Newnham have done useful work in bowling, and Knowles has been a good wicket-keeper. Lawrence is a good bowler, and has a good eye in batting, but must develop the proper technique if he hopes to be a real batsman.

Surridge and Lawrence have both played with the 1st XI. on occasion. The Colts should supply some very useful players for the School next year.

CRICKET RESULT, 2nd XI.
School 44
Northampton 58 for 3
Lost by 7 wickets.

CRICKET RESULTS, UNDER 15 XI.
Bedford 117 for 6 declared.
School 35.
Lost by 82 runs.
School 76 (Surridge 22, Leslie 17).
Northampton 81 for 3.
Lost by 7 wickets.
School 56 (Surridge 18, Roberts 21).
Bedford 57 for 5.
Lost by 5 wickets.
School 79 (Wills 27 not out, Roberts 13).
Harpur Central 87 for 3.
Lost by 7 wickets.

THE UNDER 14 XI.

The Under 14 XI. has not developed as well as was anticipated this season. N. A. Tompkins and Lee have bowled well and promise very well. The batting has been rather indifferent.

The team has usually been chosen from: D. R. Roberts (Captain), Lee (Vice-Captain), A. C. Jones, Houghton, T. D. Partridge, Simmons, Holmes, T. S. Groome (Wicket-keeper), Beckwith, Moule, N. A. Tompkins, J. Tompkins, J. R. H. Wills and Hodson.
MATCHES PLAYED.

Harpur Central 63 (Lee 6 for 14).
School 43 (Hodson 18 not out).
Lost by 20 runs.

Bedford 98 (N. A. Tompkins 7 for 21).
School 67 (Hodson 24, A. C. Jones 21).
Lost by 31 runs.

Kettering 51.
School 25.
Lost by 26 runs.

Northampton 51 (Roberts 4 for 7).
School 68 (Lee 27 not out).
Won by 17 runs.

Leicester 23 (Lee 6 for 15, Tompkins 3 for 6).
School 10.
Lost by 13 runs.

RESULTS OF HOUSE MATCHES.

ROUND 1.

Seniors : Lions 82 for 9 declared (Hardwick 34, Minney 18) v. Dragons 62 (Lawrence 32, Hardwick 6 for 25).
Stags 21 (Oakley 5 for 9, Chapman 5 for 6) v. Gryphons 22 for 8 (Hill 5 for 6).

Juniors : Lions 61 for 2 (Houghton 50 not out) v. Dragons 56 (Hodson 35).
Stags 28 for 5 v. Gryphons 27 (Law 20, Lee 5 for 15).

ROUND 2.

Seniors : Lions 15 for 1 v. Stags 14 (Minney 4 for 5, Hardwick 5 for 6).
Gryphons 21 (Smith 4 for 8, Hyde 3 for 6) v. Dragons 22 for 4.

Juniors : Lions 29 (Roberts 4 for 9) v. Stags 30 for 7 (Holmes 4 for 8).
Gryphons 38 for 5 (Law 20 not out) v. Dragons 32 (Law 6 for 9).

ROUND 3.

Seniors : Lions 35 for 6 v. Gryphons 34.
Stags 64 (Surridge 27, Hunt 3 for 7) v. Dragons 57 (Willmott 19, Hill 5 for 14).

Juniors : Lions 24 for 8 (Tompkins 15, Law 6 for 14) v. Gryphons 23 (Tompkins 5 for 2).
Stags 41 (Lee 18, Simmonds 5 for 12) v. Dragons 42 for 6 (Hodson 19 not out).

FINAL POSITIONS.

Lions 22 pts.; Stags 10 pts.; Gryphons 8 pts.; Dragons 8 pts.

RUGBY FOOTBALL.

For the first time for some years, we did not lose any of the School 1st XV. at Christmas, and the team was therefore able to make full use of the experience gained in the matches of the Autumn Term. The team’s record was very successful, as the 1st XV. lost only two games, each by the narrow margin of 3—nil and the Under 14 XV. lost only one.
1945. Results.

Dec. 1 1st XV. v. Northampton G.S. 2nd XV. Home Won 13-3
,, 6 Under 15 XV. v. Northampton G.S. Home Won 8-5
,, 12 Under 15 XV. v. Kettering G.S. Away Lost 23-0
,, 15 1st XV. v. Old Boys Away Lost 6-5

1946.

Jan. 30 Under 14 XV. v. Towcester G.S. Away Won 20-6
Feb. 2 1st XV. v. Queen’s Bedford 2nd XV. Home Won 14-0

HOUSE NOTES.

DRAGONS.

Housemasters : Mr. G. E. Sharp, Mr. C. A. Pine and Mr. C. J. H. Ward.

Head of House : D. R. Smith.

House Prefects : H. K. Maddams, A. J. W. James, A. J. Carter (Secretary) and J. A. Willmott.

Mr. C. W. F. Laurie having left the School and Mr. I. J. Nicholas having retired from his position as Housemaster, we welcome Mr. G. E. Sharp, Mr. C. A. Pine and Mr. C. J. H. Ward, under whose guidance we hope to prosper in the future as we have done in the past.

The third round of the Rugby Competition, when we lost both games, was disappointing, as until then we had lost no matches and had every confidence of winning the cup.

We did not meet with any success in the competition for the House Plays Cup, but it is hoped that next year our now comparatively young actors will be able to do better.
Unfortunately our attempts in the Cross Country Competition were unrewarded and we were placed 4th. The performance of the juniors was, however, very promising.

For the fourth time in succession we were able to win the Martin Athletic Cup and thanks are due mainly to J. P. Hyde, D. R. Smith, Hodson, Simmons and Wiggins, who between them earned most of the points.

We were again awarded the Ferguson Trophy and special note must here be made of the outstanding work of P. T. Eden, who, keeping up his usual brilliance, gained three of the four prizes in his form. As this trophy is given for school work it is pleasing to be able to note that we have now held it for the past three years.

The Cricket Competition was most unsatisfactory and in spite of an encouraging game with the Lions, which we narrowly lost, our efforts declined and we were placed third.

In spite of the tireless efforts of A. J. Carter, who so ably conducted our Choir in the Music Competition, we were again placed third.

To finish on a somewhat brighter note we will express our hopes of winning the Swimming Cup, considerably raised by the fact that we already have a slight lead on the long distance swimming.

GRYPHONS.

Housemasters:
Mr. J. G. Dunning, Mr. T. G. Cook, Mr. D. H. T. Sterry.

Head of House: J. R. Jones.

We welcome back Mr. Dunning, our Senior Housemaster, who has been on war service, and Mr. Sterry as our Assistant Housemaster.

In the 3rd round of the Inter-house Rugby Competition the seniors beat the Lions by 16 points to nil through combined team play, Austin being the leading player. The juniors lost by 6 points to nil, and although playing better than previously threw many chances away. Our position was disappointing, being last, as we had hoped to carry off the cup.

In the competition for the Cook Cup for Dramatics we were placed 3rd. This is one place better than last year and shows promise. The superior acting of the Stags and Lions was the reason for this. The leading parts were taken by Flooding and Streton.

Once again we carried off the Cross Country Cup rather by packing than by individual running. We were placed second in the Athletics Cup Competition, due only to the all round superiority of the Dragons. Oakley was an outstanding figure in the middle events. However, as a climax to the day, we carried off the Relay Cup.
In the first Inter-house Cricket Match the seniors beat the Stags team but the juniors were beaten. The bowling of Chapman was the main reason for our victory and D. S. Law of the juniors batted very well in all games. In the 2nd round we lost to the Dragons in the senior game, the juniors winning. We lost both games with the Lions.

We were disappointed when we were placed last in the House Music Competition, for the choir, under Finding’s direction had been placed 2nd in the set piece, but the House was handicapped by the lack of a pianist.

We are represented in the 1st XI. by Chapman and D. S. Law, having lost two of our more outstanding seniors, Tyers and Austin at the end of last term.

Two more competitions this year have yet to be decided for the Swimming and P.T. Cups.

Good luck to all Gryphons who have left us recently, and who will be leaving.

LIONS.

Housemasters:
Mr. H. H. Wintersgill, Mr. J. H. Butler, Mr. R. V. S. Ward.

Head of House: R. A. Hales.

The activities of our Housemasters are worthy of note. We most cordially welcome back from the war our Housemaster, Mr. Butler. Having finished off the Axis, he is now battling with mathematics. We congratulate Mr. Ward on his recent marriage and wish him happiness for the future. Mr. Wintersgill’s turn in the limelight will come in a fortnight’s time when he will attempt to find fare for the ravenous members of the school’s fruit picking camp in the Vale of Evesham.

The House has taken part in all the Inter-house activities with varying degrees of success. Partly due to its large numbers the achievements of the senior part of the House have been especially gratifying.

In a Rugby Competition which was full of surprises the Lions were placed third. Our hopes of success were weakened by the lack of an enthusiastic team spirit. Our senior team however had the satisfaction of beating the Stags’ team, the winning House.

We had high hopes of winning the Cross Country Cup. We started the competition in fine style, in the senior round we had five runners in the first ten, a Lion, G. C. Neville coming home first. Our other teams fared badly and we slipped from first place to second.

In a keenly contested Dramatics Competition we were placed second. Our failure to retain the cup was due rather to the choice of play than to the performance of the actors.
The less said about the Athletic and Relay Competitions the better. Some Houses seem to possess an unlimited supply of born runners; others, ours included, rear first-class runners only with difficulty. The efforts of Wallis, Neville and Minney, although good performances, brought us little success.

If last term brought the Lions nothing but defeat, summer term so far has brought nothing but success. The two competitions which have been decided brought two successes to the Lions within three days.

Our reputation as the musical house was again stoutly defended when we won for the third successive time the Music Cup. The issue was turned in our favour by the excellent performance of the choir in its two open items, "Chillingham" and "How blest are shepherds." R. A. Hales, the conductor, was commended by the adjudicator for his fine work. Linnell who accompanied and Turner and Wilson who played a duet, were congratulated on their piano playing.

As was expected we were easily able to retain the Cricket Cup. Our senior team did not lose a match and our juniors only one. Praise must be given to Hardwick, our Captain, but both teams as a whole were outstandingly good. The bowling was particularly good, the efforts of Hardwick and Minney for the seniors, and for the juniors N. A. Tompkins and especially Holmes, only in the second form, were noted with admiration.

We congratulate J. T. Hardwick on his selection and performance as a member of Northants. 2nd XI., also on his position as Captain of school cricket. Altogether there are four Lions in the 1st XI. and others in the junior teams, especially the Under 14.

We congratulate D. A. G. Turner, G. C. Neville and G. Coles on gaining their House Colours.

We extend heartfelt sympathy to all Lions about to plunge into examinations, great and small. May they rise to the occasion and foil the examiners!

We wish all Lions about to leave our ranks and all old members of our House all success in the future.

STAGS.

Housemasters:
Dr. A. Jackson, Mr. H. C. Phillips, Mr. S. B. Harris.

Head of House: B. O. Elmore.

House Prefects: Howard, Desborough, Cross, Hodgkins.

It is satisfying to note the welcome return of Mr. Phillips from the forces to his former position as a Stags' Housemaster. As there are now three Housemasters to each House, we are pleased still to have Mr. Harris with us.

We have maintained our position in the school since the last House notes were written, and two more cups have been
wrested from "alien hands." In the Rugby Competition, after losing the first round to the none-too-formidable Lions, the Senior team, captained by Fair, went on to defeat both the Gryphons and Dragons, and this, with the good work of the junior team, gained us the Cup.

A lack of good runners was keenly felt in the Cross Country Competition, and despite much effort, we were placed third.

The Athletics Competition saw the Stags' competitors running with much enthusiasm, but without honours, our final position again being third. Surridge ran a fine mile in the middle section, and generally, this section shows promise.

Good casting, choice of play, and all round acting ability each contributed towards our being placed first in the House Dramatics Competition. The play, the farcical "Crimson Cocoanut," was produced by E. Cross, assisted by Patenall. Their task was made difficult by the fact that each took a leading part in the play, but, ably supported by Desborough, Hill, Martin, Skells and Hodgkins, the result was never in doubt.

In the House Music Competition, Desborough, as Conductor, has earned our thanks once again for his patient and sustained efforts, which again placed us second. Needless to say, it was the Lions who defeated us.

The senior and junior teams both played reasonably well in the Cricket Competition, our final position being second. We are represented in the 1st XI. by Timpson, Hodgkins and Hill, in the Under 15 XI. by Surridge, (Captain), Wills and Ellingham, and in the Under 14 XI. by D. Roberts (Captain) and Lee.

At the time of writing, we are leading with the points awarded for long distance swimming, and we hope to repeat last year's success in winning the cup.

Finally, we express the hope that, for all concerned, the tiresome wait until September for the result of the S.C. and H.S.C. will not have been in vain, and to all Stags who are leaving us this term, we wish "Good Luck!"

ANNUAL ATHLETIC SPORTS, 1946.

Sports Day was held on 16th May, but as is customary the finals of the long distance events had been run at the end of the Spring Term.

Times on the whole were good and we hope that the improvement in the standard of athletics will be maintained so that we may be able to compete with other schools. This is not just a matter for a few individuals, it concerns the whole school and next year we would like to see more people availing themselves of the facilities offered for training.

In the sports notable performances were made by Surridge, G. C. Neville and Wiggins in the long distant events, and by
J. Hyde, Oakley, Hodson and Wiggins again in the sprints and the jumps. The Dragons won the Martin Athletic Cup and the Gryphons won the Henson Relay Cup after a most exciting senior race.

Thanks are due to the Masters who acted as officials on Sports Day and particularly to those who have helped with training.

CROSS COUNTRY, 1946.

The runs were rather hard going for the runners this year as the weather, which has been favourable for the last three or four years, was not helpful. Some of the seniors found as much difficulty in negotiating the barbed wire at the muddy ditches, as they could have expected in crossing the brook. Last year’s times for the senior and middle courses still remain unbeaten, and while the juniors succeeded in beating last year’s time they were not able to set up a new record for the course.

THE SCHOOL PICTURES.

As little, apart from their titles, has been said in the magazine recently about the pictures which appear in the top corridor, it appears to be worth while to give again some facts about the scheme.

The pictures are good reproductions of some of the world’s best paintings, chosen according to a definite plan. We receive a set of ten pictures each term and these sets are arranged in groups of three, each group illustrating some aspect of Art.

The groups are:

1. The Language of the Artist.
2. Religious Art.
3. Idealist Art.
4. Realist Art.
5. Art and Society.
Last term we had the last set in Group 4—“Landscape.”
The pictures were:—

1. The Water Mill (Dutch), Meindert Hobbema, 1638—1709.
2. The Little Street in Delft (Dutch), Johannes Vermeer, 1632—1675.
3. City of London from Richmond House (Italian), Canaletto, 1697—1768.
4. Winter (Flemish), Pieter Brueghel the Elder, c.1525—1569.
5. Village Street (French), Maurice Utrillo, 1883—1934.
6. Farm on the Banks of the Seine (French), Renoir, 1841—1919.
7. Santa Maria della Salute (French), Paul Signac, 1863—1935.
8. Landscape with Houses (French), Paul Cézanne, 1839—1906.
9. The Cornfield (English), John Nash, 1893—.
10. The Fall of Icarus (Flemish), Pieter Brueghel the Elder, c.1525—1569.

The new set of pictures is the first of Group 5 and is entitled “Aristocracy.” It is intended to show what type of picture has been produced by and for the highest level of society: or the effect of aristocracy on painting. It is noticeable that the pictures are all such as a rich man would want: pictures of himself, his family, his property and his pleasures, and there is nothing to recall the harsh realities of life. Profound thought or deep emotion are not much in evidence.

The ten pictures are:—

1. Schonbrunn Palace (Venetian), Canaletto, 1720—1780.
2. Concert in Venice (Venetian), Francesco Guardi, 1712—1793.
3. Camargo Dancing (French), Nicholas Lancret, 1690—1743.
4. Dance (French), Antoine Watteau, 1684—1721.
5. James VI. of Scotland at the age of Eight (Italian), Zuccheri, 1542—1609.
6. Prince riding on an Elephant (Moghul School), c.1556—1605.
7. Marie Antoinette (French), Mme. Vigée Lebrun, 1755—1842.
8. William Van Heythuysen (Dutch), Frans Hals, c.1584—1666.
9. Prince Ruprecht of the Palatinate (Flemish), Sir Anthony Van Dyck, 1599—1641.
10. The Calmady Children (English), Sir Thomas Lawrence, 1769—1830.
SCIENTIFIC SOCIETY.

The Literary and Scientific Debating Society having ceased to function, the scientists in the school decided to form a "Scientific Society."

This, with Mr. Holmes' help started this term and is now well under way.

At the first meeting G. J. Howard gave a most interesting talk on "Plastics," giving us an insight into the production of many of the well-known plastics of to-day. He also told us of several plastics unknown to the general public, but which were a great boon in the chemical and similar industries.

At the next meeting—which was some weeks later, due to the Whitsun holidays—B. O. Elmore dealt at great length with the Stellar System, which many of us agreed we had never before found so fascinating.

The Committee has decided not to hold any more meetings this term as so many of the members are taking the Higher and School Certificates, but hope to resume at the beginning of the Autumn Term.

A VISIT TO THE "EVENING TELEGRAPH"
PRINTING WORKS BY IV.A1.

On July 9th, IV.A1 made a very interesting visit to the "Evening Telegraph" printing works at Kettering.

The form was divided into three groups and during the course of the visit saw all the various processes. The photography process in particular was very popular among the boys. In this process the form saw how the photographs were actually taken and the negatives etched on to a metal plate before being printed into the newspaper.

In the creed room they were shown the method of receiving news from different parts of the world. This news was quickly printed and rushed into the news room from which it was printed in the Stop-press column of the first edition of the "Evening Telegraph" possible.

Various other offices were seen and an amusing part of this was that each boy recorded his voice on a dictaphone and then heard himself speak.

Each boy received a copy of the "Evening Telegraph" which he had seen printed.

VISIT TO WINTER GARDEN THEATRE.

A party of senior boys visited London on Wednesday, March 8th. The party split up into small groups in the morning and the various activities enjoyed, included book-hunting, sightseeing and a visit to the Science Museum, South Kensington. The afternoon was spent at the Winter Garden Theatre where Donald Wolfst and his company were performing "Hamlet." The arrangements were made by Dr. Jackson.
PARENTS’ DAY AND PRIZE GIVING,
20th June, 1946.

The combination of Parents’ Day with Prize Giving was a departure from our usual practice but it was a great success. The weather caused much misgiving but at the last moment the sun rose to the occasion and half an hour after a thunderstorm we were sitting in the Quad. in brilliant weather and welcoming our first Headmaster, Mr. F. C. Lay, M.A., B.sc., now at the City of Oxford School, as principal guest, along with his wife and eldest daughter.

The open-air ceremony of prize giving was brief and happy and parents then “were sent to school” whilst the boys went to watch the fathers losing to the School XI. at cricket.

Exhibitions in the Labs. run by the boys, and stalls run by the Parents’ Committee provided plenty of attraction, until tea was served in the Quad. to about four hundred visitors.

PRIZE LIST AND EXAMINATION SUCCESSES.

Sixth Form:

J. S. Maddams Open Exhibition of £40 for Natural Science, Queen’s College, Cambridge.
State Bursary for Science.

D. W. Robinson Revis Studentship, University College, Nottingham.

K. R. Spencer State Scholarship.

Oxford Higher School Certificate:—

Group III.: V. M. Bayliss (Distinction in Chemistry).

J. S. Maddams (Distinction in Pure Mathematics).

D. W. Robinson.

K. R. Spencer (Distinctions in Pure and Applied Mathematics).

Mr. Lay’s Prize for Divinity: D. A. G. Turner.

Fifth Form: Oxford School Certificate:—

MUSIC NOTES.

2. Recital of Sacred Music, April, 1946.

November 30th, 1945, a music recital arranged by Mr. Wintersgill was played to the whole school. Miss Joan Cann (violin) and Mr. Wintersgill played the first movements of Beethoven's Sonata in F (Spring) and Brahms in A; also Melody from Alceste, Gluck, and Melody in E flat, Tchaikovsky.

Mr. Wynne played piano solos, Variations (the Harmonious Blacksmith), Handel; Valse in E minor, Chopin; The Golliwog's Cakewalk, Debussy. Mr. Wintersgill played Ballade No. 1, Chopin; Ritual Fire Dance, Da Falla.

At the Ash Wednesday Service, 1946, lessons were read by Fitch (Iia1), N. A. Tompkins (IIIa1), Mitchell (IVA1) and Mr. Nicholas. Mendelssohn's air "If with all your hearts" was sung by Buckmaster, T. D. Partridge and Whittimore (IIla2). The anthems sung by the full choir were "Jesus, joy of man's desiring" Bach, and "O Lord most high, eternal King," Godfrey Sampson. Hymns 133, 625.

At the Breaking-up Service the Special Choir sang "My song is love unknown" Whitehead, and the whole school sang Psalm 23, chant Walmisley in F.

CONCERT OF CHRISTMAS MUSIC,

TUESDAY, DECEMBER 18TH, 1945.

God Save the King.

1. From Bach's Christmas Oratorio:
Chorale. The Holy Son of God most high.
Recits. Now it came to pass.
Aria. Prepare thyself, Zion.
Chorale. How shall I fitly meet thee.
Recit. And she brought forth.
Chorale. Ah, dearest Jesus, holy child.
Recit. And there were shepherds.
Chorale. Break forth, O beauteous heavenly light.
Recit. And the angel said 'Be not afraid.'
Chorale. Within yon gloomy manger.
Recit. O haste ye then.
Aria. Slumber, beloved.
Chorale. Whole choirs of angels.

The duteous day now closeth ... ... ... "

HOUSE MUSIC COMPETITION.

The House Music Competition was held on June 4th. The adjudicator was B. W. Appleby, Esq., M.A. (Music Master, 1932-9, now Music Adviser to the Doncaster Ed. Com.)

The test piece was Farrant’s “Lord, for thy tender mercies’ sake.” All four choirs sang excellently, Stags and Gryphons winning the highest marks. The House conductors were congratulated on their good work.
In the voluntary pieces, Lions were easily first. The piano duet by D. A. G. Turner and P. Wilson (Slavonic Dance No. 2, Dvorak), and the two part-songs by the choir, conducted by R. A. Hales (“Chillingham,” Stanford, and “How blest are shepherds,” Purcell) all received high marks. G. Linnell's accompaniment was praised.

The final marks were: Lions (R. A. Hales) 77; Stags (J. C. Desborough) 69; Dragons (A. J. Carter) 58; Gryphons (K. M. Finding) 55. Lions won the competition for the third year in succession.

LIBRARY NOTES.

It is hoped to have the Library rearranged by the end of this term and the shelves labelled. Members of the Sixth Form are undertaking this work.

Recent accessions:

John Ford Plays.
G. R. de Beer Growth.
E. G. Richardson Physical Science in Modern Life.
The Oxford Dictionary of Quotations.
G. M. Trevelyan English Social History.

Mr. Bratt has presented some French and German books to the Library.

Further suggestions are welcomed.

PARENTS' ASSOCIATION.

A meeting of the Committee of the Parents' Association was held on February 8th. After welcoming the new President, Mrs. M. B. Wrenn, the Committee made preliminary arrangements for Parents' Day. At a further meeting on May 28th final details were settled, and the following members undertook the management of games and stalls: Mrs. Webb, Mrs. Adams, Mrs. Boddington, Mrs. Law, Mrs. Shaw, Mrs. Jennings, Mrs. Matthews, Mrs. Wells, Mrs. Leslie, Mrs. Sellers, Mrs. Fair, Mrs. Faulkner, Mrs. Williams, Mrs. Haynes, Mrs. Powis, Mrs. Edwards, Mrs. Quinn, Mrs. Beattie, Mrs. McCall, Mrs. Clarke, Mrs. Toms. The success of these efforts was shown by the contribution of the Parents' Committee to the School Amenities Fund which this year reached £60, the largest figure so far obtained. Thanks are particularly due to Mrs. Webb for her tireless efforts on behalf of the school and the Committee. We are glad to record that she has consented to continue in office for a further year.

The Parents' Committee also formed a sub-committee consisting of Mrs. Law and Mrs. Sellers to represent them on the Old Boys' War Memorial Committee.
With a view to extending next year's programme a meeting of the Parents' Committee will be held on September 13th, when it is hoped to arrange for parents the 1946-47 programme of entertainments, such as Whist Drives and Dances at the school.

---

SWIMMING.

It has been possible to give all but four forms swimming instruction during school-time this term, and despite the inclement weather only a few periods have been missed. Part of the lunch hour has to be sacrificed by all the forms concerned to give sufficient time for the lesson, and all boys have readily done this (as no doubt they would for any other subject).

Results have been very gratifying and in some forms nearly all the boys can now swim. Distance swimming for points in the House Competition has been resumed this year and to date 150 boys have succeeded in gaining points. 70 of these boys have swum a quarter mile which gains them the maximum number of points.

---

AIR TRAINING CORPS.

With the end of the war and the closing of entry into R.A.F. Aircrew, interest in the Air Training Corps has inevitably declined. Our numbers have dropped considerably and after the end of the present school year the unit will be disbanded. During the five years of its existence the school flight can claim to have done much good work in preparing boys for entry into the R.A.F., and quite a number of its former cadets have done well in the forces. The greatest achievement gained by the Flight was to be placed second in the Competition for the most efficient unit in Eastern Command, 1944-5.

This term we have resumed our weekly visits to Sywell for flying in Tiger Moths, and it is hoped that by the end of term every cadet will have had two of these flights. Last term we visited R.A.F. Molesworth, where we were shown the new jet-propelled aircraft. Our three senior cadets, K. G. Tompkins, J. R. Jones and R. L. Jellis, have taken the Gliding Course at R.A.F. Desborough and are to be congratulated on gaining the A. Certificate of the Royal Aero Club. Our Annual Training Camp this year is to be held at R.A.F. Feltwell, Norfolk, and we are looking forward to an instructive and enjoyable week.
Examination Successes:
Proficiency: F. E. Towers.
Advanced Training Examination: R. L. Jellis (Navigation, Plotting and Theory, Engines, Aircraft Recognition); F. E. Towers (Engines); D. A. Franklin (Engines).

Promotions:
Cpl. K. G. Tompkins to be Sergeant. 26.11.45.
Cpl. J. R. Jones to be Sergeant. 8.5.46.
R. L. Jellis to be Corporal. 8.5.46.

RAILWAY CLUB NOTES.
In the Lent Term not only members of the Railway Club but all boys in the Lower Forms were favoured by a talk by Mr. Summers of the L.M.S. Railway on "Safety First on the Railways." He described methods of signalling, precautions taken to prevent accidents, and steps which were taken to minimize injuries when accidents did occur. He also dealt with the communication cord and various other arrangements for the safety of passengers.

With the advent of the Summer Term we started our excursions again. In May we held the most successful outing we have yet had, when a party of over twenty boys visited Rugby.

On arrival at the station we were met by railway officials who divided us into two parties to avoid congestion. We were taken inside two signal boxes where we were particularly interested, not only in the levers which control the signals and points, but also in the large indicators which show by means of small lights every train passing through the "section."

We also saw the flying junction to the east of the station and the diamond crossings about a mile to the west of it.

In the afternoon we were shown round the locomotive works, and the return journey was made via Market Harborough.

Later in the term L.N.E.R. enthusiasts were catered for by a visit to the New England Locomotive Depot at Peterborough. Here we saw locomotives in various stages of repair, an inspection tunnel and a coaling plant which one favoured member was allowed to operate.

On both these excursions the courtesy of the railway officials in making the necessary arrangements and showing us round was greatly appreciated.

SCOUT TROOP.

This term has been our most active period in the year. We have won the Silverwood Cup. We camped for a week at Easter in the coldest and wettest weather we have ever had. We have camped for two week-ends at Overstone, the Northampton Scouts camping ground. We have been to the great
rally at Northampton and have been inspected by the Chief Scout.

But the "we" who have done all this is still only a dozen people and at the end of this year our numbers will be even less. There must be many boys in the school who would like to take part in these activities. If you are keen we will welcome you, so why not join us? The qualifications are a willingness to learn to follow the Scouts' life, to keep the Scouts' promise. It may not seem easy but it is well worth the effort—ask the old hands.

Parents' and Old Boys' who read these lines may wonder where they come in. We cannot carry on fully without the support of parents and old boys in keeping us going in equipment and clothing. (Darning little Willie's Scout stockings or helping to provide us to get a new bell tent to keep the rain off little Willie in camp are all part of the very valuable help that parents can give us).

IIA. LECTURE SOCIETY.

Under the Chairmanship of Crawley the following lectures have been given this term: Knight, Volcanoes; Wait, Sports; R. Clarke, British nesting birds; Frogley, Stamps and their origin; R. W. Howell, Threshing; Britchford, River Thames; Burt, Main products of the world; M. Wells, Precious substances; Raven, Carpentry tools; Stokes, Domestic animals; Tew, Sticklebacks; Gilbert, Crow family; Crawley, Glaciers; R. Clarke, Animals of the countryside; Cradick, Cooking in the open; Gilbert, Finch family; B. G. Smith, Beetles; D. C. Westley, Avro Tudors; Fitch, Coal gases; Emerton, Iron; P. F. Jones, Castles; Warren, L.M.S. Engines.

The Form decided that the lecture by M. Wells on Precious substances was the best of the term.

B. Warren, Secretary.

VI. FORM VISIT TO THE STANTON IRON COMPANY'S WORKS.

Making their second outing for the day, the Science Group of the Sixth Form went to the Stanton Iron Company's plant at Wellingborough, on April 2nd. On this occasion the scientists of the Upper School were accompanied by Va.

The two sections, Va. and the Sixth were shown round the works in separate parties: Mr. Witham, the Yard Manager escorted Mr. Holmes and the Science Sixth, explaining the function of each installation in turn. The blast furnace was quite the most interesting and fortunately we arrived as the
iron was about to be tapped. It was an impressive sight to see the molten iron pour from the furnace into the channels prepared for it.

We all thoroughly enjoyed our tour which, if at times was hot and dusty, was always interesting.

WELLINGBOROUGH GRAMMAR SCHOOL
WAR MEMORIAL FUND.

An Old Boys' Memorial Appeal Committee, representing the Old Boys' Association and the Parents' Associations Past and Present, has been formed under the Chairmanship of F. C. Gent, Esq.

The object of the Committee is to invite subscriptions for a Memorial to the twenty-two Old Boys, who gave their lives in the War.

The Committee will meet on September 13th to decide on the form which the memorial shall take. This will depend largely on the amount subscribed. In the meantime the opinions of Old Boys returning from the forces and of the Parents of those Old Boys who fell in the war, are being solicited.

Parents and Old Boys of the school who wish to support this Appeal are asked to send to the Headmaster a cheque or P.O., made out to Wellingborough Grammar School War Memorial Fund, if possible before September 13th.

Any views expressed as to the form which the Memorial should take, will be laid before the Committee.

OLD BOYS' NOTES.

We are now welcoming back many members from the forces. We hope they will now give us active support in all our activities. At the same time we would like to wish every success to those returning to "civvy street" who are starting new careers or taking up old ones.

The social activities of the Association have been confined to dances, which have been very well patronised and are now established as social events. Their success financially can be judged by the permanently happy expression of our Hon. Treasurer.

Since our last appearance in print R. E. Bridgeford has departed for the R.A.F., and M. W. Richardson is now carrying on the by no means easy task of Hon. Secretary and Hon. Treasurer.

We would like to draw the attention of all members and readers to the appeal for the War Memorial Fund circulated with the June Old Boys' letter and to ask everybody to give it
their fullest support. Though we are only a young school our Roll of Honour is long and those who have served and given their lives are worthy of the best commemoration that we can give them.

We note with regret the passing of I. D. Claypole, aged 19. (1939—1943).

RUGBY CLUB.

To sum up the season’s activity the Club has done very well for a new body founded in the difficult war period. We have had many enjoyable games.

The Club is now affiliated to the English Rugby Union so that its independent existence is recognised.

During last season D. F. White was selected for the Army. L. R. Bailey now plays for Streatham.

For next season we have nearly a full fixture list. Again we have many good fixtures and this year we hope to do justice to our opponents. Our main need is a regular playing team. Lack of practice together and therefore lack of team work is the major cause of the large number of points scored against us.

Results—(continued from the Autumn magazine).

Summary: Played 22, won 8, lost 13, Drawn 1. Points 134 for, 247 against.

We would like to take this opportunity of thanking the Headmaster for the use of the school field for our games and to members of the staff of the school who have assisted us.

CRICKET.

The Old Boys cricket team has had a fairly successful season so far. With R. Tyers as Secretary and A. Bird as Captain we entered the Wellingborough Town League and
have had some most enjoyable games, finding the English weather our most consistent enemy. The same difficulty has been experienced with the cricket team as with rugger, in finding enough Old Boys to turn out each Saturday. For this reason we are very grateful to a number of "outsiders," including at least two Masters, for their services at various times. Now that more O.B.s are being released from the Services, and several men now at college will become available during vacation, we trust the situation will ease. Anyone interested should contact R. Tyers, 82, Melton Road North. Our thanks are also due to the Headmaster for his assistance in providing us with facilities for net practice and a most enjoyable practise game on June 22nd, and also for various items of equipment. A fuller report of the season's activities will be given in the next issue.

VI. FORM VISIT TO PRAED'S BREWERY.

On January 23rd the members of the VI. Form Science Group, accompanied by Mr. and Mrs. Holmes and Mr. Sterry, visited Campbell Praed's Brewery. We left school at 10.30 a.m., and made our way towards the brewery; upon reaching it we were met by Mr. Rixon who was to conduct us on our tour of inspection.

He took us first to the malt room where we were told how the barley was treated to form the malt. This malt is then tipped into a large hopper and is crushed; to this crushed malt hot water is added. This mixture is left for about two hours and the malt extract, known as "wort," is led off.

Mr. Rixon then revealed some of the secrets of the brewer, about the special burnt sugars which are added to give the beer a better colour. Some of the boys tasted the sugar and pronounced it good.

From there we proceeded to a large room where the wort is digested with hops and sugar in a special, steam-heated, copper vessel. When this has boiled for about 100 minutes it is cooled and led into a vat and a certain amount of yeast is added.

In the meantime the malt has been treated with more water and this is boiled with hops and sugar as was the first mash; in this case it is boiled for two hours. This is added to the first brew. This beer is then left in the vat for seven days while it ferments. During this process the beer is kept at a constant and cool temperature. When it has finished fermenting the yeast is skimmed off and stored in a cold room for use again.
As Mr. Rixon took us to see the racking room, where they put the beer into barrels, he told us the difference between beer and stout, which is that the public wanted stout so they got darker beer.

From there we passed the boilers and watched the stokers stoking the roaring fires to produce steam with which the beer is boiled. We then followed Mr. Rixon into the barrel washing department where the barrels are scrubbed outside and scalded inside before being used to put the beer in.

The cooper’s workshop was next to this barrel room and we watched him as he showed us how he mended the barrels.

Before visiting the bottling store we went to see some of the men preparing a preservative which is put into the beer. This is shavings of fish treated with sulphurous acid and is known as Finings.

In the bottling store we saw the cooling plant which is an ammonia pump which compresses the ammonia and then lets it expand quickly and the brine with which it is surrounded, is then pumped through the pipes round which the beer is circulating, thus cooling it.

Also in the bottling store is the pasteurizer which is a steam heated chamber in which the bottled beer is kept for a short time at a certain temperature thus killing all the bacteria present in the beer.

After watching the men skillfully putting the labels and the crown corks on the bottles, B. O. Elmore thanked Mr. Rixon on our behalf and we departed after a very enjoyable visit.
